

CHEMIST ON WEDDING EVE OFFERS HIMSELF IN TEST

2

SMALL BLAZE IN KNITTING MILL

A small blaze on the second floor of the Danville Knitting Mill brought out the Southside fire department last night at 8 o'clock. Fire fighting apparatus responded to an alarm turned in from box number 12, situated at the corner of Wilson and Lynn streets, and found a large wooden box of bobbins on the second floor of the plant burning. The blaze was more of a smoldering nature and the sprinkler system had been set in operation and was holding the fire down. The firemen used only chemicals in extinguishing the smoldering fire. Only damage will result from water from the sprinkler system, but this will not be ascertained until this morning. The origin of the fire is unknown.

THREE MEN HURT IN AUTO CRASH IN MARTINSVILLE

MARTINSVILLE, Va., Aug. 1.—Three men were painfully injured here tonight when the Buick car in which they were riding ran into a telephone pole and was practically demolished. The men in the car were Ross Campbell, Dick Warren and a Mr. Benton.

The accident happened on Franklin street, where, it is said, the car was being driven at a rapid rate of speed. It got from under the control of the driver and ran into the telephone pole. The car telescoped and the pole snapped off near the ground. Campbell was badly lacerated about the arms and head. Warren's head and body were cut in a number of places, while Benton sustained a broken arm. All of the men received treatment at the Martinsville Hospital.

CHIEF EVANS ROBBED

SOUTH BEND, Ind., Aug. 1.—Curious what a golf champion carries in his suit case, thieves operating at Lake Wawasee, Ind., stole a black bag belonging to Charles "Chick" Evans, Chicago, who they found about \$200 worth of clothing, most of some worth worn and more than a hundred telegrams congratulating him on his victory at Cleveland last week. He believes the thieves will return the clothing when they look the bag's contents over, as the bag is easily identified and the clothing and telegrams are of no value to any one else.

Danville Woman Hears of Father Missing 27 Years

Thought Killed Years Ago, Returns to Find Wife Married Again—Will Visit Daughter Here—Case Parallels Famous Enoch Arden Story.

HICKORY, N. C., Aug. 2.—Another adventure stranger than the which befell him early Saturday morning, when a three-week-old girl baby was left on his front porch, came into the life of William O. Hoyle, local automobile mechanic, today. His father, Lee Hoyle, after wandering around for 27 years, drove up in an automobile with Pink Hoyle of Gastonia and declared his identity to the son.

Some 15 years ago Mrs. Lee Hoyle married again and is now living with her second husband, Rufus McMillan, three miles from Danville, in Caldwell county. This couple have five children, the oldest being less than 15 and the youngest about six.

When Lee Hoyle disappeared 27 years ago he was then living near Cargas Mountain, in Burke county, was told by Lineberry Hoyle, his uncle, that Lee had been killed by a runaway team at a lumber mill in Catawba county. The wife and mother accepted the story as true.

Later she married and reared other children besides the little boy and girl by her first marriage. William Hoyle is a good automobile mechanic in Hickory.

Lee Hoyle left this afternoon in an automobile for Danville to visit his daughter. He said he would return to Hickory next week and from there would go to Greenville, S. C. to engage in the cotton business. He has been in Birmingham for the past six years.

Had Lee Hoyle, like Enoch Arden, found the facts in the situation of his home and silently departed, his story might never have been written, but he said he felt the urge to return home to see friends and loved ones. He said he had written twice but had received no answer.

William Hoyle, who is growing accustomed to strange events, said this afternoon that the infant girl left at his home was doing well and that he and his wife, who have been married 12 years, are quite as usual, becoming more attached to her every day.

DAUGHTER OVERJOYED TO HEAR FATHER IS ALIVE

When informed by a reporter for The Bee this morning that her father, who has been missing for twenty-seven years and who she had never seen, had reappeared and was on his way to see her, Mrs. E. L. McKnight received the greatest surprise of her life for no doubt had existed in her mind that her father had been dead for many years. The above story from Hickory explains the reappearance of Lee Hoyle after having been reported "dead" more than a score of years after he disappeared but Mrs. McKnight had heard nothing of the strange adventure until interviewed this morning by a reporter at her home on Wilson street.

Considering that she had learned of the reappearance of her long lost father, Mrs. McKnight was asked if

EASIEST WAY TO REMOVE UGLY HAIR GROWTHS

(Beauty Culture.) Here is a method for removing hair from arms, neck or face that is unfeeling and is quite inexpensive: Mix a thick paste with some powdered talcum and water and spread on hair surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment but be careful to get genuine talcum and mix fresh when wanted.—adv.

Peterson's Ointment Best For Eczema

First Application Stops Itching of Eczema Salt Rheum and Piles

Ends Chafing Distress in Five Minutes "Live and let live is my motto" says Peterson of Buffalo. "Druggists all over America sell PETERSON'S OINTMENT for 5 cents a large box and I say to these druggists, if anyone buys my ointment for any of the diseases or ailments for which I recommend it and are not benefited, give them their money back."

"I've got a safe full of thankful letters testifying to the mighty healing power of Peterson's Ointment for old and running sores, eczema, salt rheum, hemorrhoids, sore feet, broken breasts, itching scalp, chafing and blind, itching and bleeding piles."

T. G. Rokstrom, of 898 Loraine Street, Detroit, writes: "I suffered with piles for over 25 years—nothing did me any good. After my fourth box of Peterson's Ointment I am nearly cured. It is the greatest ointment I ever heard of." 35c, 60c, \$1.00, \$2.50, \$5.00.—adv.

Former Judge Of Greensboro Court Is Shot By His Son-In-Law

GREENSBORO, N. C., Aug. 2.—Former City Judge C. A. Jones was shot and dangerously wounded by his son-in-law, in a pistol duel in the kitchen of the Jones residence, shortly after 7 o'clock last night.

Judge Jones was taken to Wesley Long hospital by surgeons pronounced his condition as very serious. An operation performed immediately after the shooting revealed that the intestines were perforated in seven places by the bullet. Surgeons said that while not necessarily critical, the wounded man's condition is serious, the greatest danger being in the possible development of peritonitis.

Tuttle was placed in the county jail about midnight and held without bail pending the outcome of his father-in-law's injuries.

The shooting occurred during an altercation between the two and was the culmination of a long series of domestic difficulties. According to Mrs. Jones, wife of the wounded man.

Mrs. Tuttle said that he shot in self-defense, declaring that Judge Jones fired one shot point blank at him, missing and that he drew his gun and shot to frighten his father-in-law to keep him from firing again.

The shooting occurred in the kitchen, there being only one eye witness, Mrs. Tuttle, Judge Jones' daughter. She was in a hysterical condition last night and could give no coherent account of the happening.

According to Mr. Tuttle, he and his wife and Judge Jones were in the kitchen when they got into a quarrel over some domestic tangle. Judge Jones, according to Mr. Tuttle, was drinking and became angry very easily. Hardly had a word been passed when Judge Jones pulled his pistol and fired at him.

Tuttle says he drew his gun and fired with the hope of frightening his father-in-law but unfortunately his shot hit him in the back of the head. He was backed out of the kitchen door into the back yard with Tuttle following. In the yard Tuttle grabbed Mr. Jones' gun hand and forced him to drop his pistol. "It was at that time," he says, "that he saw that he had hit his father-in-law."

Mrs. Jones, who was on the front porch at the time of the shooting, says she heard two shots in rapid succession and ran to the back of the house where she saw her husband standing in the yard with his hand on his lower abdomen and the blood spurting out. She says he told her "I am shot."

She says she clearly remembers other than that Mr. Jones walked to

the corner about a block away, got into an automobile and was driven to the hospital.

Mrs. Tuttle became hysterical after the shooting and was taken by her husband to the nearby home of W. B. Pruitt, 510 Broad avenue, where medical attention was rendered.

When the officers arrived they found Mr. Tuttle at the Pruitt home with his wife. He immediately expressed a warm friendship soon after Mr. Vass came here and he spoke feelingly this morning of the loss of a close personal friend Mr. Vass at one time was a member of the board of directors of the Chamber of Commerce and at the time of the development of Hill Top Sanatorium was one of its warmest supporters serving in an official capacity on the board.

The funeral arrangements have not yet been completed owing to the uncertainty of arrival here of one of Mr. Vass' sons, H. E. Vass, Jr., who is on his way to Danville from Urbana, Ga. until Mr. Vass can be reached by wire it will be impossible to announce the time of the obsequies though these probably will take place some time on Saturday.

\$100 Contribution To Mrs. E. S. Pierce By Ku Klux Klan

CUMBERLAND COURTHOUSE, Va., Aug. 1.—The "Old Red Klan," of the Invisible Empire, of Pamunville, has contributed \$100 toward the support of Mrs. E. S. Pierce, widow of the minister for whose slaying Larkin Garrett was on trial today.

Mr. Pierce wrote the following letter in acknowledgment: "Your kind letter with enclosed gift of \$100 to hand, and I want to say I appreciate more than I can express this gift. I want you each one to accept my sincere thanks for same. I also appreciate your offer of assistance stated in your letter. God bless you each one."

TEA DISPLACING BEER. (By The Associated Press.) LONDON, Aug. 2.—Enormous increase in the quantity of tea consumed through the world, according to Mining Lane experts.

Britishers now consume tea at the rate of 8 1/2 lbs. a head compared with 5 1/2 lbs. a few years ago. Some of this increase is due to the high price of beer, which forces the British workman to "let off steam" on pints of tea instead of beer.

Says Many Women of Today Do Not Marry For Love But For Support

BLUE RIDGE, N. C., Aug. 2.—"Due to changes in woman's status, many women of today are degenerating into plain drones or parasites. They exist largely for the sake of dress, show and ornamentation. They take little or no part in the creative activities of the world. When they marry, they marry not for love, for productive work and for the replenishment of the earth with their progeny, but purely for economic support."

This statement was made today by Walter J. Matherly, of the School of Commerce of the University of North Carolina, in addressing the Conference on Human Relations in Industry. Mr. Matherly spoke on "Human parasites" and declared that the "parasites" of the civilization of the past, as the modern producers. A full conception of the dignity of useful labor and the proclaiming of the ideals of hard work and productive effort were given as steps to relieve the situation which he described.

"In fact, it often looks as if in many instances, the wealthier the husbands, the more parasitic become the wives," he continued in speaking of the women. "Of course this is not true when the women actually manage their own households, or rear children, or engage directly in business or a profession. In such cases, they are just as productive as the man."

"But when women do not come within one of these classes, they are within one of the most deplorable of social parasites, and threatening the stability of American civilization."

"If we allow female parasitism to gain much headway in America, we find the Jews, the Greeks and the Romans will be conquered by more intelligent and more invigorating nations, and our boasted civilization will pass into oblivion."

"Even child bearing has been greatly reduced among modern women. The large family is no longer found as it was years ago, especially among the wealthiest and most educated Americans."

"It was estimated that three or four years ago that the present birth rate, all the descendants of the Mayflower could within three hundred

Henry F. Vass Dies In Richmond; Burial Saturday

Henry Fitzhugh Vass, 68 years of age, prominent hardware merchant of this city, passed away yesterday afternoon at 4:30 o'clock at St. Luke's Hospital, Richmond, following heart failure with which he was seized Tuesday night. Mr. Vass accompanied by his wife and son, F. Hamilton Vass, went to Richmond several days ago with the purpose of being operated upon for an affection of the stomach, his condition being considered serious. He was being prepared for the operation when the heart attack came and his decline was rapid.

Mr. Vass was the veteran hardware merchant of Danville, coming here 45 years ago from Culpeper, Va. He has been continuously in the business since he has always been in this city. He first became connected with J. H. Schoolfield and Co., and later was taken in as a partner, the concern becoming Schoolfield and Vass, then J. H. Schoolfield and Vass, and finally Vass-Watson Corporation.

He was born of a prominent family in Warrenton, Va., in 1855 and came to Danville in 1873. His death marks the passing of the last but one of a large family, one sister, who lives in Culpeper, surviving. It was this sister who was being visited by Mr. Vass while she was ill last Spring when two of his brothers died within a week of each other. All his life until last December Mr. Vass has been of robust health.

For over twenty years he has been senior warden of Epiphany church and has always been an indefatigable church worker. He numbered among his friends practically all of the older citizens of Danville and many among others, being accounted by as an genial, lovable man, a splendid type of citizen and a successful business man.

With him at the time of his death was his wife, his daughter, Mrs. T. M. Myers, Washington, D. C., and his son, Hamilton Vass, Jr. Besides the above mentioned, he is survived by Mrs. Frank B. McFall, of this city, and H. F. Vass, Jr., Wichita Falls, Texas.

Captain Harry Wooding who was one of Mr. Vass' oldest and warmest personal friends expressed sincere grief over his death this morning and paid him a warm tribute referring particularly to his devotion to his family. Mayor Wooding established a warm friendship soon after Mr. Vass came here and he spoke feelingly this morning of the loss of a close personal friend Mr. Vass at one time was a member of the board of directors of the Chamber of Commerce and at the time of the development of Hill Top Sanatorium was one of its warmest supporters serving in an official capacity on the board.

The funeral arrangements have not yet been completed owing to the uncertainty of arrival here of one of Mr. Vass' sons, H. E. Vass, Jr., who is on his way to Danville from Urbana, Ga. until Mr. Vass can be reached by wire it will be impossible to announce the time of the obsequies though these probably will take place some time on Saturday.

NEW YORK COTTON. (By The Associated Press.) NEW YORK, Aug. 2.—An accumulation of overnight buying orders carried the active cotton contracts 15 to 20 points higher at the opening today and there appeared to be a good deal of bullish sentiment in the market as a result of yesterday's sensational government report. Although English markets were inclined to discredit the report they showed strength at the time of the local opening because of reported high winds in Texas and lack of rain there.

Cotton futures opened firm: October 22.50 December 22.44 January 22.30 March 22.30 May 22.30

Nursing Diet Beer Returned by Court

WHITINSVILLE, Mass., Aug. 2.—Catherine Framere, of Craggy Peak told Special Justice Brady in Uxbridge District Court today that beer seized in her home yesterday must be returned to her because she was nursing a child and the beverage was necessary for her diet.

Justice Brady ordered Police Chief Mulcahy of Northbridge to return 18 bottles of home brewed beer but fined Mrs. Framere \$50. She paid. She waived right to claim moonshine whiskey alleged to have been seized with the beer.

Three Injured In Fracas on U.S. Ship

Disorder Resulted When Chinese Soldiers Boarded Vessel and Demanded a Free Trip—15 Arrested by Bluejackets.

(By The Associated Press.) PEKING, Aug. 2.—In a fracas aboard the American steamer Alice Dollar, caused when a crowd of Chinese soldiers boarded her at I-Chang and demanded free transportation to Munich, brought back from his recent American trip. He advised the Germans to have no illusions about the attitude toward their country folk in general in America.

Cardinal von Faulhaber found that in the feeling of Americans toward Germany, much depends upon the moral powers of recuperation shown in future by the Germans themselves.

Mute Persons To Have a Church

(By The Associated Press.) CHICAGO, Aug. 2.—Chicago's silent church congregation, composed of many of the 2,000 deaf of the city, will have a permanent church home when the new City Temple is dedicated, according to the Rev. Philip J. Hasenstab, pastor.

The members of the deaf mission have been without a place of meeting of their own since the deaf overpowered the rioters and arrested 15 of them. Shots were fired before the trouble was ended. The Chinese soldiers had become threatening when their demand for a ride was refused.

"But the deaf congregation still holds its services once a week," says Constantine E. Hasenstab, assistant pastor. "Every Sunday afternoon they come together for all parts of the city for their worship service of Scripture reading, sermon and hymns in the sign language."

This is an illustrated stereopticon lecture, and by watching the signs of the interpreter they enjoy programs of readings, plays and songs. We also have study courses with 35 members of the deaf congregation enrolled.

Twice every month the negro deaf meet at Hartzell Center with a somewhat similar program to that given for the other members of the church. Chicago's work for the deaf began in 1859. The permanent church was organized in 1893. The Rev. Mr. Hasenstab came here from the state school for the deaf at Jacksonville to organize a congregation. Recently his work has grown to include three state schools for the deaf in 50 cities.

DISPELS GERMAN ILLUSIONS.

(By The Associated Press.) MUNICH, Aug. 2.—Much animosity against Germans "still remains to be overcome" in the United States, was one of the messages Cardinal Michael von Faulhaber, archbishop of Munich, brought back from his recent American trip. He advised the Germans to have no illusions about the attitude toward their country folk in general in America.

Cardinal von Faulhaber found that in the feeling of Americans toward Germany, much depends upon the moral powers of recuperation shown in future by the Germans themselves.

SOCIAL ACTIVITIES

Celebrate Birthday.

Yesterday afternoon little Miss Elizabeth Martin celebrated her eighth birthday at a delightful party at the home of her parents, Mr. and Mrs. F. L. Martin. A floral love story, "Pantomime Housekeeping" and other games were played on the lawn directed by Mrs. Ellis Slaughter.

A birthday cake with yellow candles was cut by the children and an ice course in color scheme of white and yellow was served after the games.

Each guest presented a gift to their hostess, wishing her many happy returns of the day. Howard and Jack Martin, brothers of Elizabeth, assisted in serving. Those present were: Elizabeth Stephens, Dorothy Cox, Cecile Cox, Mary Ellis Slaughter, Charlotte Slaughter, Martha Gibson, Martha Wilford, Carol Glenn, Virginia Martin, Mary Soyer, Della Alderson, Emma Guy Negginson, Alice Bennett, Kathleen Bass, Florence Powkies, Margaret Yates, Doyle McKinney, Cornelia Garnett, Margaret Garnett, Virginia Hager, Margaret Fulton, Martha Earp, Marion Fitzgerald, Harriet Dodson and Elizabeth Martin.

Birth Recorded.

Born to Mr. and Mrs. John N. Ragsdale Jr., a son, John N. Ragsdale, III, Saturday, July 28th, 1923, 166 College avenue.

Entertainment Postponed.

The "Evening with Hiawatha" which was to have been given on Saturday at Sunnyside this evening, has been postponed until next week on account of weather conditions.

Danville Library.

August has been chosen by the "Mark Twain Memorial Park Association" to be known as "Mark Twain Month." Those interested in the plans of the association will want to renew their acquaintance with his books will find them in the Danville Library. "Mark Twain a Biography," by Paine.

Visiting in Durham.

Miss Nell Cobb motored to Durham yesterday where she will be the guest of relatives.

Personals.

Mrs. J. W. McCord, and son David Carter, arrived in the city today from Lexington, Ky., and will be the guests of Mr. and Mrs. L. S. Carter. Mrs. McCord will be pleasantly remembered at Miss Mary Carter. Miss Elizabeth McCord, of Lexington, Ky., is also the guest of Mr. and Mrs. L. S. Carter. Mrs. Robert Benton left today for Roanoke.

Mr. Claude Fickland and son, Claude, Jr., of Nashville, Ga., are visiting Mrs. Fickland's father, Hon. H. O. Kearns.

E. Johnson and Henry Drake, of Durham, N. C., returned home yesterday, after spending several days in the city.

R. E. Johnson, of Durham, will be with Lige and Myers Tobacco Company in Danville this season.

Little Miss Lydia Gaver, daughter of Mrs. and Mrs. George Gaver, Virginia avenue, was operated upon yesterday for tonsils and adenoids.

This morning Miss Gaver is doing nicely.

Rev. J. Clyde Holland is reported ill at his home on North Main street. Miss Helen Martox, of Sandy Level, is the guest of Mrs. B. H. Wood, Main street.

Miss Christine Wood is visiting at Callands.

Miss Vera Broome of North Main street, is visiting relatives in Charleston.

Master Crook Is In Toils Of Law

(By Chicago Tribune Service.)

CHICAGO, Aug. 2.—A master crook is in the toils of the law today, picked up, ironically enough, by two detectives traveling out of a neighborhood police station because "They didn't like his face."

He is Harry Brown, one of the famous Brown brothers, race track swindlers, and were suspected in the ver unsolved killing of the "Waco Kid" in a fashionable hotel in St. Augustine, Fla., two years ago. Using the name, "A. T. Karger," in his dealings with Harry P. Miller, of Tarentum, Pa., Harry was indicted by a Newark, N. J., grand jury on charges of having caused a draft for \$20,000 to be sent to Miller addressed to the National Park Bank of New York, in furtherance of the usual race track practice of paying off a sucker and bringing him back for more.

Chief Postal Inspector A. E. Germer announced that postal authorities were endeavoring to identify Brown as the man who swindled Archie Padis of Virginia Beach, Va., in a similar deal.

Assail Govt. For Failing To Handle Lynching Problem

(By The Associated Press.)

ASHEVILLE, N. C., Aug. 2.—Ringing resolutions, denouncing the terms of the failure of State government to properly handle the lynching problem were adopted by the Commission on International Racial Conference here this morning. The resolutions were no distinction in this respect as between various sections of the country and sweepingly condemn State government's failure to stamp out what is called "the most conspicuous enemy to justice and righteousness and the most flagrant violation of the constitution of our great nation."

MORNING GRAIN LETTER.

CHICAGO, Aug. 2.—Statement by Secretary Mohler of Kansas that there is prospect of reduction in area to be planted in fall, also a North Dakota newspaper item that some farmers will abandon wheat growing are illustrations of the natural play of the law of supply and demand. This possibility of the future might become a factor in the immediate situation if we view the market from the standpoint that prices have discounted the present status of inadequate demand.

Lamson expects all grains to be selling at a level that invites substantial investment demand.

Bartlett P. & Co.—Underlying conditions are becoming stronger daily. Clement-Curtis & Co.—Investment locally is becoming more bullish.

Chicago Tribune says:—Grain traders in many instances as well as those closely allied with them are beginning to realize that the low prices have been in a measure due largely to the markets being talked down. In looking around for other causes they find that the bearish conditions have been largely if not wholly discounted for the time being.

claim she was the child of Swigart and his housekeeper, tombstone inscriptions, and newspaper obituaries as well as search for two lost family Bibles were brought into the case. Those contesting the claims of Mrs. Welch contended she was the daughter of Tom Jim Davis, old-time clog dancer and former trapper of Wolf island, in Canada.

Boydhood admiration for his "5 year old sweetheart" of more than half a century ago was injected into the testimony when Capt. Ezra Raymond La Rue of Wolf island testified in the case.

He spoke tenderly of the little girl whom he called his "baby beauty," and said she was the daughter of Davis. He had remembered her on Wolf island as an infant and later when she "bowed him out" as she rolled off a sled. He said she had come to Chicago when she was 5.

Swigart died intestate in the fall of 1917 and his estate was divided to his wife, Miss Emma Swigart, of feeble mind and 70 years old.

Mrs. Welch came forward with a

Swigart died intestate in the fall of 1917 and his estate was divided to his wife, Miss Emma Swigart, of feeble mind and 70 years old.

Mrs. Welch came forward with a

claim she was the child of Swigart and his housekeeper, tombstone inscriptions, and newspaper obituaries as well as search for two lost family Bibles were brought into the case. Those contesting the claims of Mrs. Welch contended she was the daughter of Tom Jim Davis, old-time clog dancer and former trapper of Wolf island, in Canada.

Boydhood admiration for his "5 year old sweetheart" of more than half a century ago was injected into the testimony when Capt. Ezra Raymond La Rue of Wolf island testified in the case.

He spoke tenderly of the little girl whom he called his "baby beauty," and said she was the daughter of Davis. He had remembered her on Wolf island as an infant and later when she "bowed him out" as she rolled off a sled. He said she had come to Chicago when she was 5.

Daily Sewing Hints from
VOGUE

Back No. 6591

No. 6590 cut for bodice, slip and separate blouse.

No. 6590 on a piece slip with fullness adjusted at long waistline.

LININGS AND SLIPS

The very first thing to remember, if you hope to sew fashionably, is this; that a foundation lining or slip is practically always necessary to the proper adjustment and hanging of a gown. It prevents the neckline and the fullness of the blouse or bodice from slipping out of place. If desired, a casing and elastic may be used at the waist line, provided the elastic is not too tight; but a dress that is hung from the shoulders on a lining is much better, particularly where the waist line is low.

For the dress of transparent material the full-length slip hanging from the shoulders gives the best result. In case the neck lines of the slip and frock are not of the same size, as is preferable in sheer material, the frock may be snapped or tacked to the slip at the shoulder. When there is much blouse at the lowered waist line or hips this should be held in place by lightly basting or tacking to the slip. Be careful to avoid the tight, rigid effect caused by sewing too firmly at the neck or waist line.

For woolen and non-transparent silk dresses the semi-fitted lining to the hips is usually sufficient.

A silk slip or lining, such as satin or crepe gives pleasant texture and suppleness to the dress, and if the latter is cotton, prevents the frock from clinging to the figure. The illustrated slip No. 6590 is an excellent example of a correctly cut slip and frock No. 6591 illustrates a sheer frock hung over a separate slip.

Tomorrow we will tell you how to fasten a slip correctly.

Nation's Politics
Becoming More
Agitated NowBelieve G. O. P. Convention
Will Be Factor in Determining
Nation's Destinies
Next Four Years.

(By GEORGE H. MANNING.)
(Washington Correspondent of Danville Bee.)

WASHINGTON, D. C., Aug. 2.—With the pool of national politics becoming more violently agitated each day by the tossing in of new potential presidential candidates—most of them like stones, in that they are destined to sink out of sight almost immediately—it becomes increasingly evident that the action of the Republican national convention next year will be the most important single factor in determining the destinies of the nation for the next four—or more—years.

Not that the outcome of the Republican convention will determine the leadership of the country, by any means; but the character of the G. O. P. standard-bearer will be the ultimate controlling influence in the selection of the Democratic nominee; and the combined nominations of the two established parties will undoubtedly determine whether or not there will be a definite third party movement of any consequence.

The present week has been marked by more vital developments in the 1924 presidential situation than any other period in the past two years. First, the startling illness of President Harding; second, the definite declaration by Senator Underwood of his candidacy for the Democratic nomination; third, the vigorous move on the part of the progressives to induce Senator Hiram Johnson to put himself in the running for the Republican nomination. Then there was Henry Ford's solemn statement that yes, he is not a candidate, but he may be. And latest of all the assertions of Senator McKellar, of Tennessee, that the Democratic party will provide ample opportunity for the progressives in all sections of the country to vote for a man to their liking without the necessity of forming any third party.

The immediate effect of the President's illness, aside from arousing the sincere concern and sympathy of the nation, was to eliminate him from consideration for President in 1924. Although later reports indicate that Mr. Harding will recover speedily from his sudden attack, and that therefore he may be as sound physically as he ever was, there is far less assurance that he will be the nominee than has obtained hitherto.

Coupled with the declining prospects of the President for re-nomination, the strength of the Johnson movement is coming in for serious consideration. The California senator's bitter-end stand against any form of foreign entanglements gives him great strength among the isolationists of all sections, as well as with the Republican national committee, whose chairman, John T. Adams, stands in such extreme disharmony with the President on his world court plan. In addition, Senator Johnson's identification with a large part of the progressive movement is believed to

give him an excellent chance with the western radical element.

From the Johnson boom, the numerous supporters of Senator Underwood in the democratic party are taking considerable comfort, on the ground that a progressive republican calls for a conservative democrat. The curious situation has also arisen of these democratic leaders favoring the Henry Ford third-party movement, arguing that Mr. Ford would draw more strength from a progressive republican like Johnson than from a conservative democrat, and claiming also that the Alabama senator would get a large part of the western farm vote on the tariff issue, as well as a large support in the north and east from the republicans opposed to a man of the Johnson type.

Senator McKellar's statement, however, shows conclusively that this reasoning is not shared by anything like all of the democratic leaders, even in the south. The Tennessee senator believes that a genuinely progressive democrat, on a platform promising relief to the farmers such as that afforded by guaranteeing the price of wheat in 1918, as well as reduced taxation, lower freight rates, and so on, is the paramount necessity of his party.

But in spite of Senator McKellar, it is difficult to see any prospect of both the old parties putting up a progressive. In this case there might even arise the necessity for a third party to supply the conservatives of the country with a man to vote for. And for both parties to put up conservative candidates would be almost sure political suicide, with the La Follette, Brookhart, Ladd, Frazier, Magnus Johnson clan already on the warpath for all persons suspected of reactionary tendencies.

So, if the republicans nominate a progressive, the democrats will be practically forced to nominate someone at least conservative enough to get the disgruntled republicans, and vice versa; and if the alleged "progressive" put up by either party fails to meet the approval of the wild and woolly west—the third party may come into vigorous being on very short notice.

Good Morning Judge!

Three traffic violations, one drunk and one vagrant comprised the docket in the mayor's court this morning, which provided material for only a brief session. Ed Motley was fined \$5 and costs for running a machine on the wrong license tags and without a permit. Herman Clarke was fined \$21 and costs for speeding. H. A. Hill drew a \$21 and costs fine for speeding.

CHECK IS DEPOSITED

(By The Associated Press.)

NEW YORK, Aug. 1.—Harry Verner and Simon Fishery, boxing promoters, today deposited with a bank a check for \$50,000, which they said would be given to Jack Dempsey if he would meet Harry Wills for the heavyweight title before the battle of Angel Flingo. The promoters declared they had an option on the arena in greater New York that would seat at least 90,000 persons.

DEATH OF NEGRESS

Mary Frances Clements, colored, wife of Richard Clements, died this morning at 5:45 o'clock at her home on Bellevue Hill.

That lovely gleam
olive oil gives
your hair

The soft gleam that makes hair beautiful comes from the olive oil shampoo, hair specialist says. Olive oil keeps hair soft and pliant. Then hair gleams.

Olive oil is the simplest, most economical form for your shampoo. It thoroughly cleans scalp and hair—removes dandruff. Leaves hair most amazingly soft and silky. No dull dryness and brittleness. Get a bottle at any drug or department store. Use it. Note the improvement.

FRECKLES

Now Is The Time To Get Rid Of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you would soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the Double strength Othine as this is sold under guarantee of money back if it fails to remove freckles—adv.

Former Stage Beauty's Dream
of \$400,000 Estate VanishesGhosts of Past Stalk
at Will Hearing

CHICAGO.—[Special.]—Dreams of \$400,000, and all that its possession means have faded for Mrs. Emma Welch, former stage beauty, now 55 years old and a wardrobe mistress for a Chicago musical comedy company.

Probate Judge Henry Horner has ruled, after two years' litigation during which 140 witnesses were called, that Mrs. Welch is not the daughter of the late Charles F. Swigart, alderman of the old Fourteenth ward, and therefore not an heir to his \$400,000 estate.

Swigart died intestate in the fall of 1917 and his estate was divided to his wife, Miss Emma Swigart, of feeble mind and 70 years old.

Mrs. Welch came forward with a

claim she was the child of Swigart and his housekeeper, tombstone inscriptions, and newspaper obituaries as well as search for two lost family Bibles were brought into the case. Those contesting the claims of Mrs. Welch contended she was the daughter of Tom Jim Davis, old-time clog dancer and former trapper of Wolf island, in Canada.

Boydhood admiration for his "5 year old sweetheart" of more than half a century ago was injected into the testimony when Capt. Ezra Raymond La Rue of Wolf island testified in the case.

He spoke tenderly of the little girl whom he called his "baby beauty," and said she was the daughter of Davis. He had remembered her on Wolf island as an infant and later when she "bowed him out" as she rolled off a sled. He said she had come to Chicago when she was 5.

HOW TO BE HAPPY THOUGH MARRIED

Be Good, but Don't Be Dull, Doris Advises Wives Who Would Retain Their Lure for Their Husbands.

—BY DORIS BLAKE

Some one said once that "the one great trouble about virtue is that it lacks vitality. We like the naughty ladies of history not because of their wickedness, but in spite of it. What we enjoy is their 'pep,' their will to be different."

I was reminded of this on hearing a tale of a man who deserted a woman who was the epitome of the virtue that lacks vitality.

"She was so blinkety-blank good," the erring mate wailed, "that I couldn't wait my pipe without feeling as though I were doing it in a church sanctuary."

Well, with all the easy virtue, the Miss Goodies and the compromising on the good old-fashioned morals we read and hear about today, it is well to learn that the woman who is possessing the fine quality of an extraordinary degree, and I am inclined to think the husband in this instance, deprived of that virtue, would have found refuge in another by way of operating his domestic affections.

The fact is, however, that we do possess a "sneaking regard" for persons who break the conventions, providing they do it on a grand and whole some scale. Petty triflers need not apply for admission, let it be understood.

The Gopatrias and the Peggy Jones and the Pompadours and the Cress would not remain good copy in the next adventures, memoirs and biographies did not impart a whiff of force and a certain invigorating sense to us. Principally it is their nonconformity to rule and habit which impels us to read on and perhaps secretly revel.

Don't misunderstand me. I am not suggesting that this secret fondness for such ladies, as Freud would prob-

ably read into this diversion, is born of a suppressed desire to imitate them. There is too much sacrifice of content and happiness involved in such desire. But what I am driving at is that in modern history it is quite permissible to be good and to be different; with some husbands not only permissible but rather the wiser thing to be.

The attributes of the girl lure the

HEARST'S RANCH MAY BE SEIZED

By JOSEPH PIERSON
(By Chicago Tribune Service.)
MEXICO CITY, Aug. 1.—William Randolph Hearst, the American publisher and the largest land holder in Mexico, has filed a formal protest with the State Department in Washington against the threatened seizure of his Barbirosa ranch of 333,000 acres by the agrarian commission in the State of Chihuahua.

William Ferris, the manager of the ranch who has been spending a month in Mexico City carrying on negotiations with the federal government, has suddenly departed for the ranch. The seizure which has been threatened for months seems inevitable and imminent despite the efforts of the large Hearst organization in Mexico City.

While in the Mexican capital two months ago, Mr. Hearst appealed to the American authorities to avert "new and heavy taxation to be levied against his 1,000,000 acre ranch extending through the three states of Vera Cruz, Oaxaca and Chiapas. The taxation was levied only on the portion within Vera Cruz.

It is reported that Governor Pinarque of Chihuahua has been having considerable correspondence with the federal authorities regarding the announced plans to seize the Barbirosa ranch. The governor declined to accede to the federal viewpoint and hope seems to have been abandoned by the Hearst headquarters on the ranch. Mr. Hearst has avoided a formal protest because he hoped to avoid friction with the Mexican government which might imperil other vast property. The present action places his claim officially in the line of seized properties before the recognition conference.

TREMAN BACK FROM PARIS, BUT WILL NOT TALK

(By The Associated Press)
NEW YORK, Aug. 1.—Robert F. Treman, wealthy Ithaca manufacturer, smiling and urbane, courteously refused, when he returned on the Majestic today, accompanied by his attorney, to affirm to deny that the courts of Paris had divorced him and Irene Castle.

Mr. Treman returned to America two days after Mrs. Castle, but he said he was absent when the big liner docked.

Mr. Treman said he would rather not talk about the divorce. Nor would he discuss reports that he intended to remarry the dancer.

"I would rather say anything about the affair," he said. "I trust I may be excused. I expect to return to Ithaca tomorrow sometime."

Although the Treman-Castle divorce was recorded on the prior, the dancer vehemently denied, when she reached these shores, that any decree had been granted.

She and Treman were "good friends," she declared as evidence thereof she announced, she would go down the bay to greet the Majestic nor was he to greet the Majestic.

In the meantime reports were circulated and denied by the dancer that she had Treman were to be re-bayed to greet the Majestic nor was she waiting for Treman beneath the big "T" in the customs baggage inspection department on the pier, where reporters and photographers were gathered to greet them both.

There will be a special meeting of the Pelham local Tobacco Growers at the hall Friday night at 8 o'clock. Every member urged to be present. Speakers from Chatham and Reidsville will be present.

W. W. Rowland, Sec.

PASTOR DRINKS FOR PULPIT EXPOSE; CHURCH BACKS HIM

(Special to The Bee.)

Should a preacher drink liquor? Is it all right for a preacher to take a drink with the purpose of getting actual proof for a sermon?

Many clergymen and lay members of various denominations have taken sides for and against the drinking tour. Rev. Edward Tabor made of Baltimore saloons.

The Baltimore clergyman says: "Jesus tasted light wine." Deacons and trustees of his church, endorsing his crusade against lax enforcement of the prohibition laws, are upholding him.

What do you think?

BALTIMORE, Md., Aug. 1.—This minister visited a dozen saloons. He bought himself drinks and stood at the bar and drank them.

They drank whisky and beer. He told his congregation all about his alcoholic adventures in a scathing sermon denouncing lawbreakers.

Rev. Edward Tabor is the minister. He is pastor of the Hampden Baptist Church. His spectacular performance has stirred Baltimore from its placid attitude toward prohibition enforcement, and has started a controversy within church circles here and other cities over the "ethics" of his crusade.

"Jesus tasted light wine," says Mr. Tabor, "and I see no sin in sipping wine and beer. Only fanatics on the liquor question would find fault with my having sampled the stuff."

Church authorities have not criticized their pastor for drinking beer and whisky. His crusade was inaugurated after it was agreed at a meeting of deacons and trustees of the Hampden Baptist Church that existing conditions should be exposed.

The clergyman said the whisky he drank on his tour of Baltimore saloons was "surprisingly good," considering its newness, and was the strongest he had ever taste. He judged its alcoholic strength at 50 per cent.

"Though a total abstainer," he says, "I have sipped intoxicating drinks before, and I was given whisky while ill. I approve of the prohibition law, but even if I did not approve of it I would fight for its enforcement."

Mr. Tabor from his church pulpit named saloons where he had bought whisky.

District Attorney Woodcock and United States Commissioner Supplee immediately urged him to wear out his campaign against speakeasies. But the clergyman refused.

"Evidence is so easy to get," said Mr. Tabor. "It would be folly for me to neglect my church duties to act to neglect my church duties to act."

AN ENDURANCE TEST TO BEGIN

(By Chicago Tribune Service.)

(By Chicago Tribune Service.)

TIMBUCTOO, Aug. 1.—Timbuctoo, after having been the goal of The Tribune's trans-Saharan expedition, now becomes the starting point of a new journey. The test of endurance, which was against fatigue and intense heat as a barren, waterless country, is now increased by conditions equally as demanding. The extreme physical resistance against the extreme humidity produced by the torrential downpours of the Equatorial storms and the ground vapors arising over hundreds of miles of jungle growths.

Here French medical science and administration genius have been waging a brave battle against the epidemics of yellow fever, typhoid, malaria, and smallpox. Whole villages of blacks have been wiped out by these epidemics and many swamps turned to solid ground by the French doctors in their efforts to suppress these ravages or plagues which take their greatest toll of human lives during July, August, and September. This is the part of the rainy season when the river Niger in Senegal overflows its low banks, inundating the land and in some places extending a hundred miles on either side of its course. Countless swamps are flooded and made ready for the incubation of fever germs and mosquitoes.

The Tribune expedition, consisting of three out of the original four men who started out last March across the Sahara will proceed from here over the Niger on a flat-bottomed barge with a crew of eleven men, who will row it or tow it with ropes according to the character of the river.

The river is full of hippopotami and crocodiles, many of which have been seen here in Timbuctoo, and the country to be traversed is a hunting ground for elephants, rhinoceros, monkeys and lions. If not prevented by floods we shall leave the Niger at Bakama and cross the divide, descending through Senegal to the coast at St. Louis. We shall arrive at Dakar about August 10, upon the occasion of the arrival of Mr. Sarraut, French minister of colonies at that port, the capital of French west Africa and the seat of the governor general.

After basking in the desert we are now going to bathe in the jungles, to be charged with the admission of amateur tourists to the explorers' union.

BIRTH RECORDED.

Born Monday to Mr. and Mrs. Raleigh Williams, of Dry Fork, Va., a daughter, Jack Reid.

REV. EDWARD TABOR

the role of prosecutor. "To get booze in Baltimore it is not necessary to know the ropes. All corners are served."

"Enforcement authorities are deliberately blind to liquor violations."

Another result of the Tabor sermon was an interview with Police Commissioner Gaither. The pastor says the commissioner promised more active co-operation of the police department despite a recent ruling of Attorney General Armstrong that the police have no jurisdiction in the matter.

Commissioner Gaither, admitted Mr. Tabor says, that it is almost impossible to obtain conviction when liquor violators are arrested by uniformed patrolmen.

Mr. Tabor is not content with the results of his probe. He got into communication with Prohibition Commissioner Haynes in Washington and is preparing data for a sermon to be delivered in the fall that will be even more sensational.

In the meantime an avalanche of information has been pouring through the mails to District Attorney Woodcock's office and many "near beer" saloons have closed their doors.

LANDLORDS MAKE COIN ON NEGRO

(By Chicago Tribune Service.)

CHICAGO, Aug. 1.—Chicago landlords are not overlooking any bote. Just now the unprecedented flood of negroes pouring in from the South gives an opportunity to boost rentals in various ways. To begin with, the negroes are charged double and triple what white tenants pay for the same premises.

This has the effect of putting prices beyond the reach of the whites and they go to other localities, already crowded and bid for quarters. As a result rentals are boosted all along the line.

In order to meet the high rentals, the negroes are forced to live, three roomers and boarders. The property depreciates rapidly and tenants are forced to make their own repairs.

Landlords seize upon any repairs or improvements made by the tenants as an excuse to boost the rent. Numerous instances were cited today of tenants who did their own decorating and painting, whereupon the landlord immediately boosted the rent \$5 to \$10 a month because it "looked so nice."

SOUTH CAROLINA TOBACCO MARKET OPENED YES'DAY

(By The Associated Press)

FLORENCE, S. C., Aug. 1.—The South Carolina tobacco market opened today throughout the belt with good sales reported and record high prices and averages recorded in places. According to prominent tobacco men who made an automobile tour earlier in the year the crop throughout the belt shows up well.

BROKERAGE CO. WILL CLOSE OUT

(By The Associated Press)

ATLANTA, Ga., Aug. 1.—Doremus and Company, a stock exchange firm with offices in Atlanta, Augusta, Savannah, Jacksonville and Birmingham announced late today that customers had been notified that the concern was going into liquidation and would discontinue business.

Frank Doremus, senior member, declared the firm's finances were more than ample to pay off all outstanding obligations.

"We have decided to close out," Mr. Doremus said, "because of anticipated depression in general business. Stocks of all descriptions are way off and I can see no prospects of an improvement. As soon as all accounts are liquidated we will close all of our offices."

HELEN WILLS MEETS DEFEAT

(By The Associated Press)

SEABRIGHT, N. J., Aug. 1.—Miss Helen Wills, of Berkeley, California, youngest of America's women tennis stars, played third in the 1922 ranking list for the nation, met unexpected defeat today in the third round of the invitation tournament at the Seabright Club, losing to Miss Eleanor Goss, of New York 6-2, 6-2.

Miss Goss, who played in the recent championships at Wimbledon was not accorded a ranking last year because of limited competition.

Thrilling matches marked the day's play in the men's singles. Both the Kinsey brothers were eliminated as were Watson M. Washburn, former Davis cup player and Francis T. Hunter, runner-up to William M. Johnston, at Wimbledon.

COTTON TRADE EXCITED OVER CROP REPORT

(By The Associated Press)

NEW YORK, August 1.—The whole cotton trade was thrown into excitement today by the report of the Agriculture Bureau announcing a condition of only 67.2 for the cotton crop, reporting a decline of 2.7 points from the previous report.

It was so far under even the lowest of private estimates that the market here immediately jumped skyward, advancing to 22.50 for October and 22.42 for December or about 132 to 140 points above the previous close.

The covering of short accounts was on a big scale from the trade had full expected a report around 70. While many traders were inclined to be skeptical over the low condition shown in the bureau statement, the fact that the crop has undoubtedly deteriorated in the past week as shown by the weekly weather and crop report, attracted a good deal of buying for outside accounts and the market closed 115 to 135 points above the previous night.

CITY AND COUNTY SHOULD WORK TOGETHER FOR RESULTS.

Beginning today, on the editorial page, the first of a series of four editorials on the advantages of the county and city working in harmony will be presented. Only by working together can the full advantages of the opportunities before Pittsylvania and Danville be obtained.

BIRTH RECORDED

Born to Mr. and Mrs. Nat H. Edwards, Benefield avenue, on Tuesday, a daughter, Doris Anne.

JUDGE IS SHOT BY SON-IN-LAW

(By The Associated Press)

GREENSBORO, N. C., Aug. 1.—Former city Judge C. A. Jones was shot and seriously wounded here tonight at his home by his son-in-law F. Clyde Tuttle. Tuttle declares that he shot in self defense, adding that Judge Jones fired one shot point blank at him, missing and that he drew his gun and shot to frighten his father-in-law to keep him from firing again. Judge Jones was shot through the lower right abdomen.

According to Mrs. Jones, wife of the wounded man, the shooting is the outcome of a long series of domestic difficulties.

Physicians attending the wounded man tonight declare his condition to be grave there being seven perforations in the abdomen.

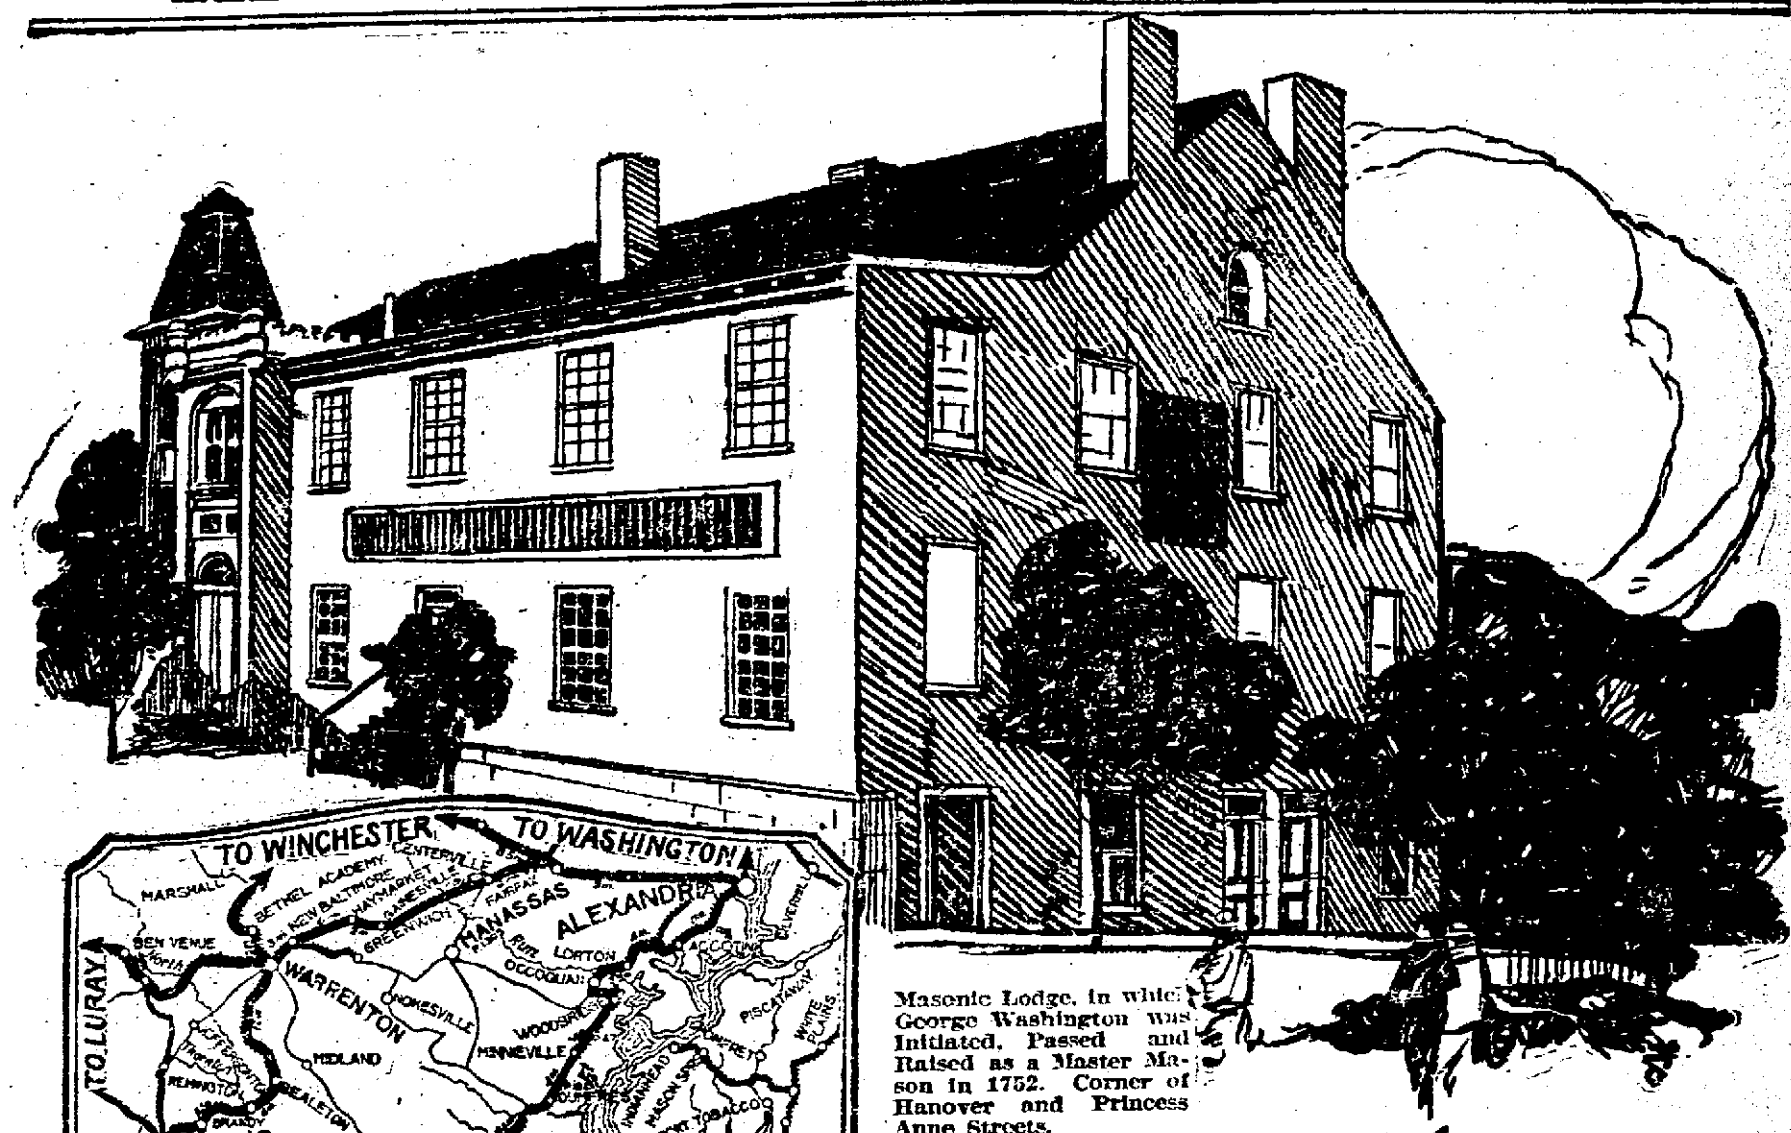

Tuttle is being held without bail pending the outcome of Judge Jones's wounds.

ANTI-MASK MEASURE

ATLANTA, Ga., Aug. 1.—An anti-mask bill was before the lower house of the Georgia legislature today with a favorable report from the committee. Decision to report the bill introduced by Representative Bozeman, of Worth county, was taken last night after a lengthy hearing by the committee at which both opponents and proponents were heard. The bill would prohibit the wearing of masks in public, except for carnivals.

GOOD YEAR Service Station

"SALE" and "bargain" are attractive words. But there is something more attractive in Standard Goodyear Service. For one thing, it is trustworthy. When you buy a Goodyear Tire from us authorized Goodyear Dealers, you know we'll help you get all the mileage out of it. That's the real economy. "Bargains" sometimes aren't.

At Goodyear Service Stations Dealers we sell and recommend the new Goodyear tires with the "S. O." Weather Tread and back them up with standard.

GOOD YEAR

Children Cry for

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

CANNOT FORFEIT BONDS

ST. LOUIS, Aug. 1.—The government cannot declare forfeited bonds of industrial alcohol users for misuse of alcohol permits the U. S. Circuit Court of Appeals here today ruled in sustaining the district court of North Dakota in finding for the defendant in the case of the government against John Wanamaker.

PERMISSION REFUSED

NEW YORK, Aug. 1.—Italian emigration officials at Ellis Island today refused to permit Italian line officials to comply with a order of the Atlantic Steamship Corporation diverting from this port to Philadelphia passengers "America" bringing 1,238 passengers including emigrants to this country.

place—where Chai-Hung's men
in waiting." His eyes blazed.

New Plan Offered In Handling Par Clearance Paper

WASHINGTON, Aug. 1.—A new plan for handling bank checks, described by its proponents as one that will mean "actual and not theoretical" collection at par, was submitted today to Federal Reserve Board. The suggestion, offered by Charles Claiborne, New Orleans, and L. R. Adams, Atlanta, representing the National and State Bankers' Protective Association, was made when the board met to give further consideration to its own plan for enforced par clearance, the effective date of which was indefinitely postponed last week.

The Claiborne-Adams program contemplates the use of par clearance on a voluntary basis within each of the twelve reserve districts but would permit a collection charge on inter-district transactions. It would take place of the recently promulgated order of the reserve board, later withdrawn, prohibiting the reserve banks from receiving on deposit or for collection checks drawn on banks which are not members of the reserve system, and which at the same time do not rent the face value of checks.

It was contended by its sponsors that while the check collection proposal would allow banks to make the collection charge if they so wish, they would be such an inducement for banks to remit at par that the number handling checks without the service fee would increase.

The belief prevailed in some quarters, however, that the scope of the program was so broad as to make the checks equal to currency within the federal reserve district with a result that the burden of expense in handling the checks would be placed on the reserve system. The expense, according to those of this view, ultimately would come out of the government's franchise tax from the reserve banks.

The special committee of reserve bank governors which acts in an advisory capacity with the board participated in today's deliberations. While no official statement was forthcoming it was reported that the governors did not look with favor on the Claiborne-Adams suggestion. It was said, however, that two and possibly three board members were inclined to support the proposal.

—Miss Ida Prescott leaves today for Richmond where she will visit Miss Myrtle Williams for a few days.

Ptomaine Poisoning

What do you know about ptomaine poisoning, the disease primarily responsible for President Harding's serious condition? It is one of the most prevalent poisons to health. The president's illness shows how dangerous it can become, through complications.

Dr. Clifford C. Robinson, Chicago, one of America's foremost medical men, makes the following explanation of ptomaine poisoning for readers of The Bee.

BY DR. CLIFFORD C. ROBINSON
(Special to The Bee.)

It may be that many laymen are not informed as to the real nature of ptomaine poisoning. The word, ptomaine—more properly ptomaine—is derived from the Greek, meaning fallen body, or corpse. Some physicians argue that the word should be used in connection with food poisoning. They claim real ptomaines are death, and at present are only two in number.

Scientists who make a special study of such bacterial poisons are called toxicologists. Twenty-five years ago, many of the important laboratories, in our great cities and also at the universities, were eagerly carrying out the study of ptomaines. This was on account of the expressed hope that science might clear up the true chemistry of bacterial poisoning. Not much interest is being manifested today. This is owing to the fact that ptomaines were found to be not very toxic. On

the other hand, very poisonous ptomaines may be formed by non-pathogenic bacteria. What this means to the layman is that there is really comparatively little food poisoning caused by the presence of ptomaines.

The poisoning from which persons suffer who are commonly said to have this trouble is contracted by eating food that is partially spoiled or decomposed. This may be improperly preserved canned meats, tinned fish or other fish, sausage, cheese, ice cream or milk. Under different conditions the same organisms may produce totally different types of ptomaines. This is an important fact, when seeking to find the real cause, in a patient.

The symptoms show in one who has been attacked by ptomaine poisoning in a very short time. The system endeavors to throw it off and dizziness is followed by severe headache, chilliness and sharp abdominal pains. In some cases violent vomiting occurs and the patient becomes partially unconscious and sometimes in severe cases coma and death.

In the treatment of ptomaine poisoning, the usual treatment of getting the material out of the system is followed. Use stomach pump at once and empty the gastro-intestinal tract. The physician will then be careful to see that no bacterial growth is present or remains.

In a mild case, that is taken in time the recovery is often rapid. But great care is required in more severe cases to make sure that the patient does not suffer from complications of the ptomaine. This may cause serious trouble and a long sickness.

Domestic Issues Very Important

By ROBERT SMITH
(By Chicago Tribune Service)

WASHINGTON, Aug. 1.—Definitely sidetracking the league of nations as the major issue of next year's political campaign, Senator Robinson (Democrat, Arkansas), Democratic leader in the Senate in a formal statement yesterday declared that "the questions of first importance are undoubtedly domestic in character."

Coming from one of the most ardent advocates of Woodrow Wilson's international policies, Senator Robinson's statement was considered to be highly significant. It marked the first open attempt on the part of the leader of the Senate Democrats to get rid of the league as an issue and to unite the party on a program dealing with America's problems at home.

"The questions of first importance," said Senator Robinson, "are undoubtedly domestic in character. But there is a general appreciation of the fact that some of these problems can not intelligently be solved without a comprehensive understanding of conditions abroad. Hence, the complete political remedy exists. He will, however, he said, support any plan which appears to be calculated to reduce the spread between what the farmer receives for his products and what the consumers pay for those products. He thinks it may be wise to again extend the life of the War Finance Corporation and to enlarge its powers in important particulars with a view to establishing and stabilizing general market conditions respecting farm products.

Robinson said that cooperative selling agencies are proving helpful to the farmers in enabling them to reach promptly and directly the consumers of their products and by so doing secure a liberal share of the price which the consumers pay. Buying agencies, he added, may be organized to accomplish similar ends with respect to the commodities which the farmers consume.

Senator McKellar (Democrat, Tennessee), followed up Senator Robinson's statement with a prediction that there would be no third party in next year's campaign.

"I do not believe there will be a third party in 1924. Of course, if both the old parties were to nominate reactionaries there most likely would be a third party. But the Democratic nominee will be a real, genuine, progressive Democrat, so progressive that any progressive Republican can conscientiously and willingly support him, and so Democratic that every real Democrat will gladly support him. Therefore, there will be no necessity for a third party."

11,516,000 BALES PREDICTION OF THE COTTON PRODUCTION

(By The Associated Press)

WASHINGTON, Aug. 1.—Cotton production this year was forecast at 11,516,000 bales from its condition July 25, which was 67.2 per cent. of normal. The Department of Agriculture announced today. The July 25 condition indicates a yield of about 14.9 pounds per acre. The condition of the crop by states includes: Virginia 88, North Carolina 82, South Carolina 64.

LAND DEPT. IS ORDERED TO BE ABOLISHED NOW

(By The Associated Press)

HARBIN, China, Aug. 1.—General Chang Tsao Lin dictator of the three Manchurian provinces, has ordered the Chinese authorities to abolish the land department of the Chinese Eastern Railway and to take over all land ceded Russia under old treaties. These measures became effective today.

La Follette Goes To Obtain First Hand Knowledge

NEW YORK, Aug. 1.—Declaring that he intended to obtain first hand information regarding conditions in Europe so that his "constituents would have nothing on me" Senator Robert M. La Follette called on the George Washington today with four other senators who are to attend the inter-allied parliamentary union at Geneva.

Those sailing with him were Senators McKellar, of Tennessee; McKinsey, of Illinois; Robinson, of Arkansas; and Swanson, of Virginia. Representative John E. Baker, of California, also was in the party.

While these senators were sailing they passed Senators Gerry, of Rhode Island and Stanley, of Kentucky, who returned from a short European trip on the Majestic.

Senator La Follette was in a jovial mood and declared he was in the "pink of condition," and that while his European tour was intended as a visit only he would not neglect looking over the continent and familiarizing himself with important subjects.

Senator Swanson said he would visit Germany, France, England, Switzerland and Genoa where he would study the workings of the League of Nations, from there he expects to go to Moscow.

In regard to the political situation, Senator Swanson said: "It is impossible to say this early as to who the Democratic nominee should be for the next presidential election."

"The man should be a progressive liberal. This would be in accord with the sentiment in the country with the traditions and aspirations of the Democratic party. It is too early to determine what man best measures up to these requirements."

"In regard to the world court, I favor the United States entrance into the World Court as proposed in the message of President Harding and Secretary Hughes conveyed to the Senate before its adjournment. But I am opposed to the acceptance of the World Court as recently proposed by President Harding in his St. Louis address."

"I would not favor entering the court if it is to be a self-perpetuating court. The proposal is most reactionary and absurd. We would not consider making our Supreme Court self-perpetuating. The World Court thus organized would be more objectionable than a National Court so arranged."

Senator McKellar announced he intended to make an extensive tour of countries abroad and visit the Ruhr, Moscow, Rome, Paris, Berlin and London.

"As for the World Court, I was for it as outlined in President Harding's speech last night, but I don't favor the self-perpetuating court proposed by the President at St. Louis."

Set is impossible to echo almost verbatim the words of Senator La Follette or a few days ago that a third party move is certain if the old parties nominate reactionaries. The one point on which he and McKellar's prediction that the Democrats could be relied upon to nominate a "real genuine progressive Democrat." He did not venture to say who this would be.

Senator McKellar made it plain that he was not against Senator Underwood of Alabama, and that his statement was aimed at no one in particular.

Senator Robinson said he was in favor of the war finance corporation, cooperative marketing agencies and "any plan which appears to be reasonable and fair to aid farmers caught in the jam of high prices for what they buy and loans for what they sell."

He would not be drawn into any discussion as to presidential nominees possibilities.

Agreement With France Hopeless

LONDON, Aug. 1.—Whether the closing sitting of Parliament tomorrow will reveal the next step of the British government in the difficulties in the European program is still unknown. The cabinet's proposed discussion of the situation today has only brought thus far the announcement that Premier Baldwin and Lord Curzon will make simultaneous statements in the House of Commons and the Lords respectively tomorrow but not the slightest indication of the nature of these statements.

The prime minister's admission in the Commons today that in the absence of permission from the French and Belgian government for the publication of their notes would be restricted, seems to point to the fact that the government does not consider the time has arrived to take any new line. M. Poincare, the French premier, has all along insisted upon secrecy of the negotiations and until he lifts this embargo or the British government decides that it is impossible to suffer further delay, it is difficult to see how there can be any publication of revelations of the communications which have passed between the Allied governments.

Hopeless as the prospect of an agreement with France seems the probabilities point to another attempt by the government to achieve such agreement by further negotiations.

The House tonight was discussing the grave problem of unemployment, and Sir Clement Montague Barlow, minister of labor, outlining the various plans for relief work, expressed apprehension that the coming winter would be no better than the last in the industrial field, despite the promise of an abundant harvest, and that the ultimate hope depended on the economic and industrial peace of Europe.

Thereupon the former chancellor of the exchequer, Sir Robert S. Horne, clearly in view of the ultimate effect on unemployment of the particular policy it adopted. He proceeded to argue that both Germany and France were likely to be Britain's greatest trade competitors; they were both largely in Britain's debt and were making no efforts to pay those debts. He contended if Germany escaping payment reparations she would become the most powerful country in Europe.

STATE RESTS IN MURDER TRIAL OF WHITFIELD

(By The Associated Press)

CLEVELAND, I., Aug. 1.—The state rested its case against John L. Whitfield late today after examining the bitter legal battle to bring before the jury that Whitfield armed himself with a 40 calibre automatic pistol before he left his home May 11 in custody of Patrolman Dennis Griffin, for whose alleged murder he is on trial.

The testimony was brought out through a statement alleged to have been made by Whitfield to "The Plain Dealer" newspaper, Cleveland, Ohio, which Cassidy read from the witness stand.

MARGARET'S BOOK REALLY OUGHT TO BE AMAZING

MARGARET SHOTWELL

(Special to The Bee.)

OMAHA, Aug. 2.—A flapper who admits it.

That's Margaret Shotwell, 16-year-old daughter of a prominent Omaha attorney.

And she's capitalizing on the fact. A "professional flapper" she calls herself.

Margaret inherited \$75,000 on the death of a friend of her family immediately, she betook herself to Hollywood, capital of movieland.

Out there she got a job as a movie

extra. And now she's gathering material for her book, "A Flapper's Impressions of the Motion Picture Stars." Her sister flappers here in Omaha can't hardly wait until it comes out. It will reveal so many things they never knew before! At least, that's the word they received from Margaret.

Already the "professional flapper" has interviewed some of the screen's most scintillating lights.

No wonder all the bob-haired clientele is so excited nowadays.

BRITISH GUNBOATS ARE SENT TO WAR SCENE

(By The Associated Press)
HONG KONG, Aug. 1.—Because of the fighting between rival Chinese factions at Amoy, the British gunboats Diomedes and Foxgloves have been sent to that port. Looting is feared. The British and Japanese consuls asked for gunboats to protect foreign lives and property.

REVOLVER IS FOUND

CLEVELAND, Ohio, Aug. 1.—The revolver of Patrolman Dennis Griffin was found late today near a shed in Bedford in which John L. Whitfield parked his automobile after he is believed to have disposed of the officer's body. The rusty weapon was found on the bank of a creek by two boy swimmers. It was identified by the serial number.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An obstetrician, expert in this science, has shown the way. It was he who first produced the great "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Bradford Torrey & Co., B.A. 44, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

Twins Drub Danville; Raleigh And Greensboro Win

Grandstand Gaff

Crowder crowded a few points off the margin between Fuhrey's Furious Twins and the Virginians. His effective mound work brought Danville back to .600 and boosted the Twins to .520.

The Twin twirler is another one of these home-town boys who are making good. A recent scout traveling in the circuit let out talk that suggested Crowder was being closely watched by the moguls of some big time outfits. They hit him a little harder and a little oftener perhaps in the big ring, but a youngster doing for a name that had the resemblance for a spell of a no-hit affair is at least very near ready to be developed by some club higher up.

Cy Twombly, who was inserted after it became apparent to Manager Murphy that Big Six Gibson was firing on only one cylinder, twirled very creditable ball, but the Winston batsmen had on their hitting raiment and slow fielding by Twombly's supporting cast helped it along. The Virginian defensive work, famous around the circuit, was anything else but brilliant yesterday.

Bill Leard handled 11 chances without a boggle and with the exception of Resco was the only member of the inner works up to usual standards.

The signing of Bill Leard not only strengthened the club but added to the ranks of feminine fandom. Mrs. Leard is up there in the stands every day wishing the boys well when victory is in sight and sympathizing with them when the game takes the wrong turn.

"Larruping" Long, once termed an indifferent player, and Ben Anderson were the chief wielders of the willow for the visitors. Long connected three times out of five, while Anderson got an equal number of safeties, one of which disappeared over the palings and another carried him half as far around the circuit.

The famous Danville rally must have been quarantined by the city health officer, anyway the last ones to leave the park said it didn't show up.

It is very seldom though the game travels that way and if the Twins are inclined to think they "Have our number" they may be in for a real one this afternoon and on several other occasions before the check-not is drawn on the Bramham wheel.

It is hard to drop one but it is done by the best of them. "For instance" the (2) ones and Yanks, they both were drubbed yesterday. The Virginians are not an exception to the other league leaders (2), so brace up and air out your lungs this afternoon, for Mike Fuhrey and his gang from Prince Albertville are due a setback.

It is very seldom that Big Six Gibson gets towed in and when such things happen new speed records are on the way.

Greensboro for once aided Danville in the pennant fight by holding the Bulls in check yesterday while Murphy's aggregation was losing. Mickey O'Quinn usually delivers.

High Point fell before the Capitals by the one-sided score of 13 to 2. Barrett, Raleigh's slugging addition at the initial sack, clouted another over the fence, while the other Capitals were banging them all around the lot. Sullivan, Raleigh's latest third-sacker hit safely twice and crossed the rubber four times out of four trips to the plate. The slaughter started on Snyder, High Point's recently acquired twirler.

When do you remember the two New York clubs losing on the same day? Both defeats were at the hands of their nearest rivals—Cleveland and Pittsburgh.

Georgia baseball admitted "Shoeless Joe" Jackson and now North Carolina pulls a similar stunt. "Shut-out" Douglas, whose tragic passing from the majors, probably created more sympathy for an erring ball-player than any other similar event, is now with the Forest City club of the little but fast-traveling Western North Carolina circuit. The little loop in its first season is annexing the best that money will bring, and the clubs to date would interest Class B opponents.

Freddie Heck, one-time Twin, and of recent years located in the Charlotte, Sally League, outfield has been sold by that club to Atlanta of the Southern circuit. Freddie deserved a try at higher ball years ago, but it is better late than never and many fans in this section would like to see the speedy outer gardener keep moving up the ladder.

Following today's tilt with Winston the two clubs will journey to the Twin City for tussles there Friday and Saturday.

BOSTON CLUB IS TRANSFERRED

(By The Associated Press)
BOSTON, Aug. 1.—President Harry H. Frazee of the Boston American Club announced tonight that formal transfer of the club franchise to J. A. Robert, Quinn and Goldman, Ohio, was made today. Freddie Quin would be the new president of the club as previously had been indicated. Associated with Quinn in the ownership are: E. M. Schoenborn, Dr. Robert Drury and Palmer K. Winslow. No announcement was made as to the price paid.

FARM AND GARDEN

BY FRANK RIDGWAY

PULLETS LAY WITHIN 105 DAYS AFTER HATCHING.

PULLETS lay eggs within such a short time after they hatch that they have to be hatched from the time they pip the shell and break out into the open until they reach the nest as layers under the improved, scientific methods of management and feeding. Scientific poultry specialists have been able to cut the time in half instead of robbing up food for seven or eight months before they lay an egg. Pullets are forced to lay within approximately three and a half months after they are hatched.

Last spring a flock of S. C. White Leghorn pullets started laying eggs 105 days after hatching at the Iowa State college. It is claimed that 115 days was the previous record made with only one pullet.

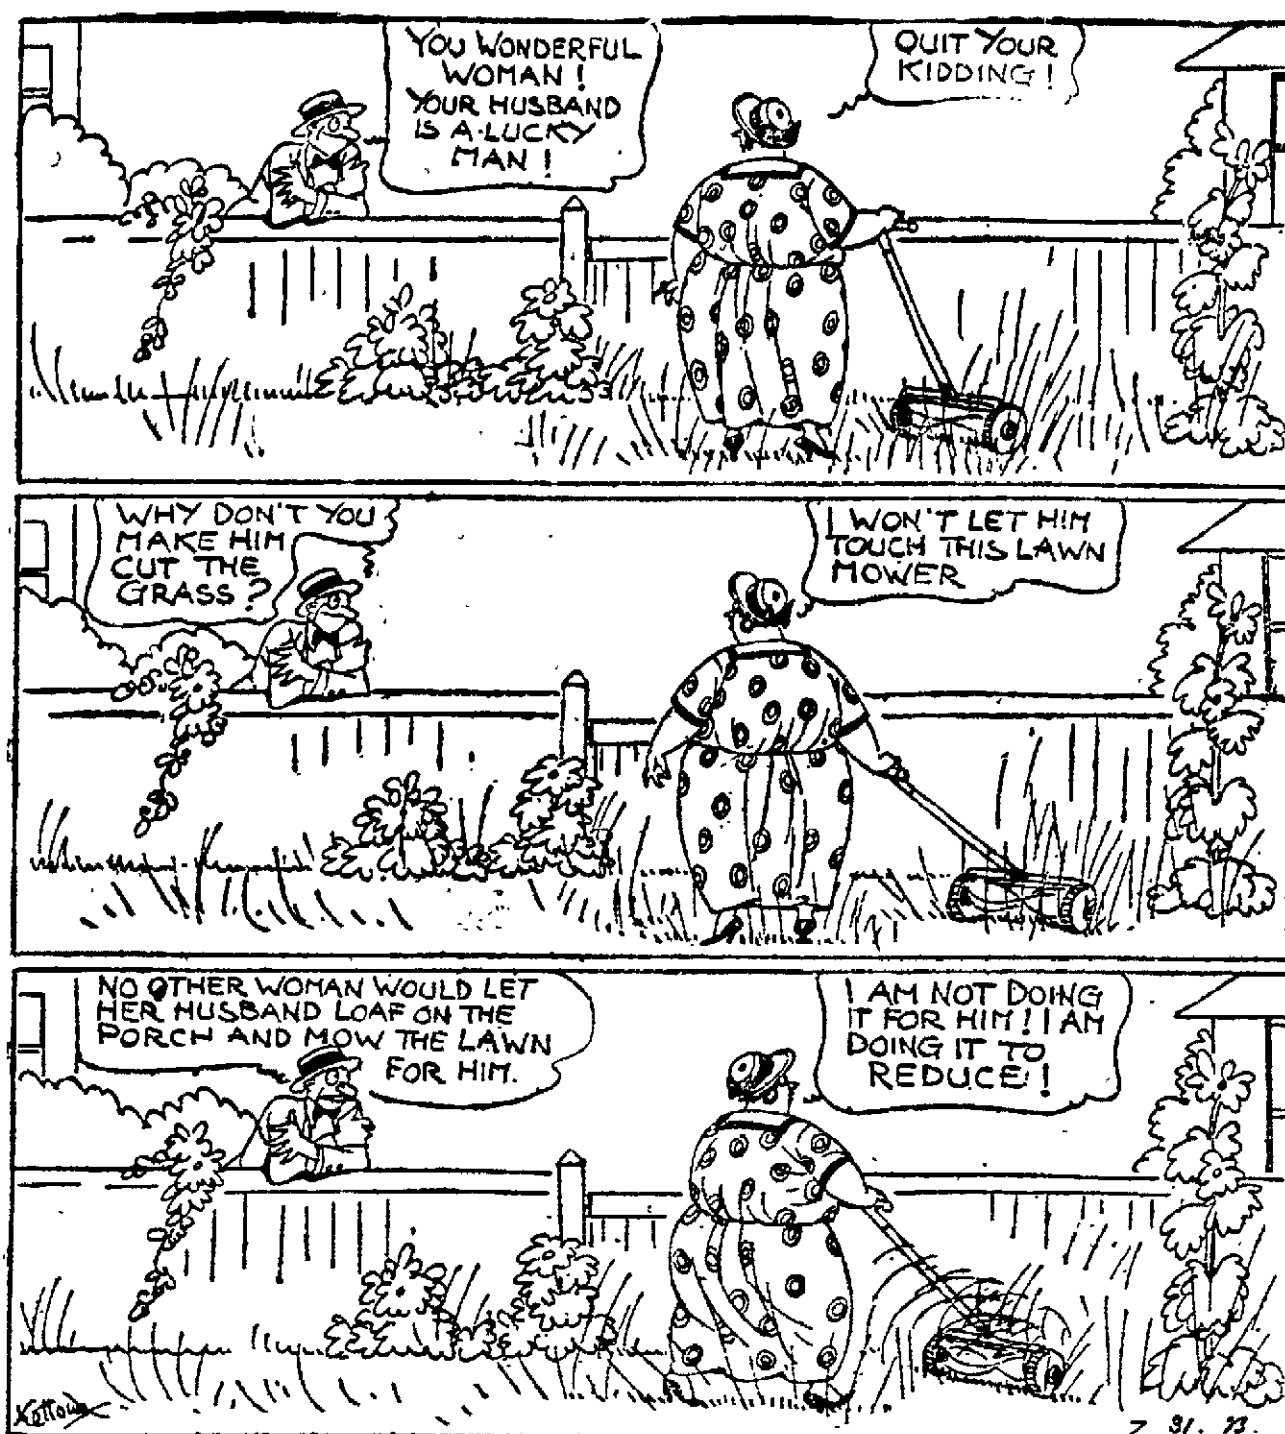

When the pullets started laying on the 76th day after hatching slightly more than old hens of the same breed.

The birds were said to be fully mature and not merely crowded for egg production, indicated by the fact that they kept up laying; half of them continued to lay during the summer.

Buttermilk was an important feed in the ration. It was fed either fresh or in semi-solid form, and not a drop of water was given the pullets in the test except in the form of buttermilk from the time they were hatched until after they started laying. A dry mash made of bran, 3 pounds; corn meal, 2 pounds; and bone meal, 1/2 pound, was given in addition to the buttermilk.

Raleigh Easily Defeats Pointes

RALEIGH, Aug. 1.—Raleigh gave the Furniture makers a good wallop here this afternoon by the one-sided score of 13 to 2. The game was a listless one except for the fact that the local fans realized that their home team had the game sewed up. The locals made two tallies in the first and added five more in the second. High Point did not score until the sixth when a lone run was made. Although at bat but three times and he received but two hits Duncan scored four runs. Sullivan, a new man scored four runs and he did not score but two bingles. Sullivan was sent here by McGraw of the Giants he being the property of that team. He was recently with the University of Pennsylvania. Snyder, a new man also appeared for High Point in the role of pitcher but he was very ineffective. He came from the Washington Senators. The box score of the game follows:

	AB	R	H	PO	A	E
High Point	25	0	1	0	0	0
Inby	5	0	1	0	0	0
Herdon	15	0	4	9	1	0

DAVIS WILLING TO RUN

(By The Associated Press)
CHICAGO, Aug. 1.—Without actually casting his hat into the ring, Governor Jonathan M. Davis, whose home state, Kansas, is booming in the Democratic nomination, let it be known in a statement issued here today that he would by no means refuse such an honor. Kansas Democrats, he said have made him their first choice, and he "is in their hands."

He's Escorted

All the dignity possible attended addition of this mountain lion to the Indianapolis zoo. Mayor Lew Shank is shown leading the animal to its new home. Is the "cat" smiling?

Crowder's Hurling Stops Virginians

The best ball playing won yesterday; and Winston-Salem happened to put up the best brand, taking the game 2 to 1. The locals never had a look-in.

Pitcher Crowder for the Twins gave a splendid exhibition of twirling, striking out ten men and keeping the five hits well scattered. His only weakness was his wildness, this accounting for both of Danville's runs. Gibson began the game but was yanked in the first inning after two men had scored and none was out. He was succeeded by Twombly, who pitched good ball. However, he was the victim of several mighty bad breaks.

It wasn't Gibson's day. He was both wild and ineffective, and when he retired the bases were full and there were two balls and no strikes on Faber.

The first inning for the visitors reads as follows:

Long, with the count of three and two, reached out over the plate at a bad one and hit to the school house, reaching third on the hit. Fuhrey then hit sharply to third, Murphy picking the ball up and attempting to make a play on Long. It was a close decision, but his umpire called Long safe and Fuhrey was safe at first. Clark then singled and Long scored. Anderson singled and the bases were full. Gibson began perceptibly to weaken and he walked Black, forcing in Fuhrey. With two balls on Faber Murphy waved Gibson to the bench and put in Twombly. Faber was walked and another man scored. Carter struck out and a full double play on Faber and Hamby stopped further scoring in the initial inning.

In the second inning the visitors added two more. Crowder singled, Long singled and Fuhrey scored. A pitched ball, filling the bases, Crowder scored on Clark's infield out and Long scored while Anderson was being put out at first.

In the fifth the Twins squeezed in a run. Clark was at bat, and he was hit. Anderson doubled, Clark going to third. Black hit just in front of home and was touched out by Cochlin. Faber laid down a bunt and Clark scored.

In the eighth the visitors scored another run on three singles and a sacrifice.

In the ninth Anderson's homer accounted for the last run. Danville's first scoring came in the fourth. After one man was down, Trexler was walked. He went to second on Regan's out and scored on Leard's single.

In the eighth two singles and a walk were responsible for the second run of the locals.

Greensboro Beats Durham In Ninth

GREENSBORO, Aug. 1.—Teague's single to left in the ninth, bringing Conley home from third, gave Greensboro a four to three victory over Durham here this afternoon. The game was a fast and well played one in every respect. Allen for the visitors and Mickey O'Quinn were the twirlers for the game. Each was about evenly matched, allowing seven hits apiece. Cox got three hits out of three times up, one of them a homer. Vigrest also hit for the circuit. The box score follows:

ENGLISH YACHTS IN LEAD IN RACE

(By The Associated Press)
RYDE, Isle of Wight, Aug. 1.—English yachts today took the lead over the American six meter boats in the first round of the races to be sailed for the British-American cup. The Englishmen made 23 points to 13 points won by the Americans. The races are yet to be sailed. Large crowds from the shore and aboard vessels watched the little craft as they traversed the 15 mile course.

FRENCH TENNIS PLAYERS DEFEAT SPANISH TEAM

DEAUVILLE, Aug. 1.—The French tennis players, by completing their defeat of Spain in the finals of the European tennis cup, have earned the right to travel to the United States to meet the winner of Australia-Japan final of the American zone to determine what nation is to oppose the United States in the final challenge round. Francois Blanchy, the French champion put the finishing touches on France's victory over Spain in his match with Flaqueur this afternoon by the score of 6-1; 3-6 and 6-1.

Prince Who Killed Rasputin Launches Paris Beauty Shop

3 Russian Princesses Act as Manicures.

(By The Associated Press)
PARIS.—Prince Yusupoff, who is declared to have killed Rasputin, has opened a beauty shop in the fashionable Faubourg St. Honoré with three Russian princesses as manicures. Mrs. William K. Vanderbilt, now en route to America, is reported to be his fiancée.

The prince has been broke since an Armenian ran off with his jewels recently following a gay party in his London apartment at which he exhibited royal jewels variously estimated at from \$2,000 to \$25,000 in value.

Prince Yusupoff has been called the man who fired the torch of the Russian revolution. He was the late governor's daughter of the Grand Duke Michael, and a graduate of Oxford, his ancestors were Tartar kings in the time of Peter the Great. Rasputin was a bogus Russian monk who exercised a sinister influence over the royal family.

Prince Yusupoff. (Copyright: P. A.)

Czar Nicholas and his empress, particularly the latter. The current belief is that Rasputin was slain as the result of a plot among the nobles. At the close of a merry supper at which he was a guest he was handed a revolver and told he must die. Instead he fired on the nobles and was shot down and his body thrown in the Neva.

Cleveland Trounces Yanks; Pirates Defeat Giants

STILL IN THE SWIM

By Burris Jenkins Jr.

National League

PITTSBURGH 2; NEW YORK 1.

(By The Associated Press)
PITTSBURGH, Aug. 1.—Pittsburgh evened the count of a five game series with New York by winning the fourth game today 2 to 1. After the Giants had scored in the first inning on singles by Groh and Meusel, the Pirates took the lead in the sixth by scoring two runs on base hits by Crawshaw and Carey's triple to left center. The game was a pitchers' battle between Bentley and Cooper but Bentley was taken out in the eighth to make way for a pinch hitter after two Giants batters had reached base. Score by innings: R H E. New York . . . 0 0 0 0 0—2 5 0. Pittsburgh . . . 0 0 0 0 0—2 1 1. Bentley, Jondard and Sowdy, Cooper and Schmidt.

CINCY 5; PHILLIES 3.

(By The Associated Press)
CINCINNATI, Ohio, Aug. 1.—Cincinnati bunched hits on Ralph Head on two innings today and defeated Philadelphia 5 to 3. Benton was hit hard but fast fielding by the home team kept down the score of the visitors. Score by innings: R H E. Cincinnati . . . 5 10 0 0 0—2 9 0. Philadelphia . . . 2 0 0 0 0—3 10 0. Head and Wilson, Benton, Luque and Hargrave.

CHICAGO 5; BOSTON 2.

(By The Associated Press)
CHICAGO, Aug. 1.—Great pitching and hitting by Grover Alexander enabled Chicago to defeat Boston today 5 to 2. After the first inning the visitors were unable to do anything with his pitching. Score by innings: R H E. Chicago . . . 5 10 0 0 0—2 9 0. Boston . . . 2 0 0 0 0—3 15 1. Grover, Alexander and Smith, Alexander and Martlett.

LIVELY BALL IS CAUSE OF THE POOR PITCHING

By BILLY EVANS
Pitching is the crying need of every major league club.
That statement goes just about as strongly for the minors.
There is a dearth of pitching material. It is apparent even in the amateur circles and colleges.
Ten years ago at least four star pitchers. Most of the teams had four more in reserve who measured almost up to the class of the regulars.
Baseball has many changes of late, but in no department of the game has the contrast been so striking as in the pitching.
What's the big reason?
Recently I was discussing this phase of the game with a former college star, now a director of athletics at a prominent preparatory school.
"Here is the trouble," he offered and it seems mighty logical.
"The pitcher was once the hero of the college and high school teams, but those days are no more."
"He's no longer a hero."
"The college twirler who let down the opposition with a few hits and scored a shutout was the most talked about man on the team. The job of pitching offered opportunities for glory. The college athlete at the susceptible age likes that line of stuff."
"Not so many years ago every college coach had a surplus of pitching material. Fifty per cent of the candidates who reported to him had been pitchers at some time during their career and most of them were anxious to continue."
"As a result the college coach always had plenty of material to work on in reality his job was to weed out the material and make no mistakes in his selection."
"Lively Ball Causes Change."
The lively ball has entirely changed the ambition of a great many ball players. Pitching has become a difficult task with the style ball that is now in use. This is the era of swat bats, which the pitcher as the big target. Pitching a shutout game is now the exception. Most of the contests are large score events in which the pitchers are badly treated as a rule.
"The glory of the spotlight no longer exists for the pitcher. As a result the athletes are passing up the pitching job for the reason that offers greater possibilities in the hero line."

Deportation Blights Movie Career of English Girl, 18

NEW YORK. (Special).—Almost assured of a career with the movies Miss Gladys West, by diminutive, dainty and just 18, was deported to England by the Ellis Island authorities.
Childish in appearance, there was something so different about the English girl from most whom the immigration officials expressed sympathy for her and wished that she might have won her case on appeal. Her manners bespoke education and careful training.
The warrant of deportation had been issued upon allegations of others that Miss West might become a public charge. The immigration authorities had inquired into charges that she was lodging in a studio apartment of George Cutts, an artist.
Had Occupied Studio.
When the hearing was set about a month ago Mr. Cutts appeared before the law division of Ellis Island. He said that she had posed for him in his art work, taking parts as a juvenile. Later when she told him she had finished an engagement with two motion picture corporations and was waiting for a flattering offer to be signed up, he rented her the bedroom in his studio, he taking the studio proper for his own lodging quarters at night.
He told the immigration authorities that neither he nor Miss West had seen anything improper in such an arrangement—that it was a mere economic adjustment to enable Miss West to remain in New York long enough

COTTON PRICES JUMP

(By The Associated Press)
NEW ORLEANS, Aug. 1.—Cotton futures soared here today advancing \$7 a bale after receipt of the government monthly crop report placing the condition at 87.5, while the traders were looking for an average slightly above 70 per cent, of normal.
The market closed at net gains of 140 to 147 points over yesterday's closing quotations.

BIG FUSS OVER BATTLE FAILED TO MATERIALIZE

(By Harry Newman)
(By Chicago Tribune Service)
NEW YORK, Aug. 1.—The expected fuss over the proposed Jack Dempsey and Lulu Firpo championship battle failed to materialize yesterday at the office of the New York State Athletic Commission, where lots of excitement was thought to be in progress though nothing happened. It was expected there would have been a big show down over the fact that Willis was being ignored by Dempsey and the fight promoters. The commission thought one of its members, explained that as no promoter had applied for a license to conduct a Dempsey-Willis match there was nothing for them to do. The commission refused to say whether it would oppose a match between the champion and Willis.
Tex Richard is all wrought up over any idea that there is any objection to a match between Dempsey and Firpo. The big promoter says that he made the match in good faith and can not see why there should be any question about holding the bout.
I think that Firpo is a much better opponent for Dempsey than is Willis," said Tex today. "You will remember that when Willis fought here last at the Garden it was a miserable showing. I'm not opposed to a Willis match but I think Firpo is preferable. If there is any demand for a match between Willis and the winner of the Dempsey-Firpo match I will be very glad to put it on."
When asked about the Harry Greb and Johnny Wilson match Tex said that he would handle that bout at the Polo Grounds on August 31. Rickard also said he had an engagement with Billy Gibson tomorrow at which he expected to close for a championship match between Benny Leonard and Charley White. Tex thinks he will place the Leonard-White match at the Polo Grounds.
Tex said also that he would attempt to arrange another championship battle between Mike McTigue, world's light heavyweight champion

SOCIETY WOMAN FINED FOR HAVING LIQUOR

(By The Associated Press)
DENVER, COLO., August 1.—Mrs. Katherine O'Connor, Denver society woman, pleaded guilty in United States District Court here today to illegal possession of liquor and illegal transportation. She was fined \$400 which was paid

WOODS and WATERS BY BOB BECKER

BIRD NOTES.
We invaded a sanctuary of the loons the other day. Driving back from the main road up here near State Line, Wis., in order to fish a small lake, we came upon Mr. Loon, who seemed to own that little, forest enclosed lake with the lily pads along the shore.
We had no more than launched our canoe, when the bird let go a burst of what has been described as "sawdust" apparently protesting against our fishing efforts. Another burst of melody, and up he went, circling around the lake before settling sail to undisturbed waters. Not ten years ago we had such a close view of a loon in flight, and when we swung our heads to watch him, he looked as big as a house.
The white-throats stayed with us as we fished the lake. And we were glad, too. While the loon's call is wild and weird, the white-throated sparrow has a soft, melodious, plaintive little song. Talk about fishing to music, this is what we did while the white-throats entertained us.
By the way, W. P. Burns writes us that he saw a golden eagle at the Michigan sand dunes recently. It was about three miles east of the Prairie Club house along the lake shore, and W. P. tells us that he came out in the open, quite close to the tree in which the bird was perched, so a good view of it was secured. W. P. also reports the finding of a dead carrier pigeon out there. The legend on the aluminum band attached to it read: "A. J. H-4567."

Blankenship, Thurston and Graham, Krouge, Ferguson and Walters.

ST. LOUIS TAKES TWO

(By The Associated Press)
PHILADELPHIA, Aug. 1.—St. Louis took another double-header from Philadelphia today winning the first game 2 to 0, and the second 8 to 3. The Athletics have now lost ten games in a row and have dropped to seventh place.
First Game R H E
St. Louis . . . 0 0 0 0 1 1—2 10 1
Philadelphia . . . 0 0 0 0 0 0—2 9 0
Danforth, Shocker and Severeid, Harris and Perkins.
Second Game R H E
St. Louis . . . 0 0 1 0 0 0—8 12 1
Philadelphia . . . 0 0 0 0 0 0—3 10 2
Kolp and Severeid; Helmach, Rummel and Perkins.

CLEVELAND 5; NEW YORK 3

(By The Associated Press)
NEW YORK, Aug. 1.—Cleveland took the first of a four game series from New York here today, 5 to 3. The visitors knocked out Pennock in the first inning. Smith was hit hard by New York but was saved by fine support. Ruth hit his 25th home run of the season in 9th inning with Witt on base.
Score by innings: R H E. Cleveland . . . 5 10 0 0 0—3 8 1. New York . . . 0 0 0 0 0—3 10 1. Smith and O'Neill, Pennock, Bush and Hoffman.

RED SOX NEED A NEW OUTFIT

BOSTON, Aug. 2.—Frank Chance is convinced that whoever manages the Boston Red Sox next year will have a big task ahead.
Chance as manager of the Sox this year has done well with the club despite the fact that it has been a tailender from the start and is almost certain to finish in the cellar berth.
The new owners of the Boston club have the franchise and the park, but they must get a ball club," says Chance.
"It would not be such a difficult proposition if the club had only a few weak spots. Instead it is a team that is weak in every department, particularly as to reserve strength.
"It will be necessary to build the Red Sox from the group up. There isn't a position on the club that is cinched. New material of high-class caliber is absolutely essential.
"Pitching is very essential. My club gets good pitching about every fourth day. It lacks speed and has no great offensive powers. It is a club that is giving its very best effort but lacks many essentials of a first division ball club."

FORMER FORD PARTNER DIED IN ANN HARBOR

(By The Associated Press)
DETROIT, Mich., Aug. 1.—Alex V. Malcolmson, prominent Detroit business man and the original partner of Henry Ford when the Ford Motor Company was founded in 1902, died at Ann Harbor today after an illness of several months. He was 53 years old.
Malcolmson is generally credited as being the man who started Ford on his way to one of the world's greatest fortunes.

TWO TEAMS TRAVELED DISTANCE OF 11,000 MILES

(By Chicago Tribune Service)

CHICAGO, August 1.—Two teams, members of which have traveled respectively 11,000 miles to put each other out of competition will clash in the American Zone finals of the 1923 Davis cup competition on the grass courts of the South Side Tennis Club next week. The contending teams are those of Australia and Japan. They will compete in four singles and one doubles encounter on the afternoon of Friday Saturday and Sunday, August 10, 11 and 12. The Australians sailed ten weeks ago from Melbourne and their trip to San Francisco saw them covering more than 7,000 miles. From California to New Jersey, the Antipodes squad under Captain James O. Anderson, covered 3,100 more miles, to take the court against the Hawaiian Davis cup team at East Orange, N. J. The "Aussies" ended their match against the Hawaiian representatives yesterday as victors in four of the five scheduled matches and tomorrow will start another 1,000 mile trip, doubling back westward to Chicago. It defeated here, they can start home, but victory will bring further hot-scotch activities back to the Atlantic states.
Counting the distance of 4,500 miles from Yokohama to Vancouver traveled by the Japanese and the further cross country jumps of 3,100 miles to Montreal and 500 miles to Chicago, the Hawaiian experts falls little short of the undertaking of the Australians.

NOTICE

To The Voters of Pittsylvania County

I hereby call your attention to the fact that I am still a candidate for Sheriff of Pittsylvania County and respectfully ask your support and influence. I am asking for the office on my own merits and not on what Mr. Hodnett or Mr. Murphy have done or have not done. Owing to the fact that I am riding deputy sheriff for this county, with a large amount of work to do, it will be impossible for me to see you all personally and as there is only one more week before the primary, I take this method of asking you once more to support me on August 7.

If you will look up my record as an officer for four years and remember what you have read of me in the newspapers, and watch the court at Chatham which I have been attending, you will see that I have not been staying at home and doing nothing. I promise you that if I am elected to the office of sheriff I will fight the whiskey traffic and moonshiners, as I have done as deputy, and what I can't do myself, I promise to have done by a set of deputies who will do justice to the public and deal fairly and justly with all. I have been asked to get out of the race and it has been reported that I was out, but I am not out and will be there to the last. Trusting you will vote for me on August 7, I am

Yours truly,
J. E. RICE.

WHAT'LL YA BET ON JOCKEL SAM?

CAN you imagine Salesman Sam turning jockey for a time? Well, that's just what he does—in order to attempt to win back some money he has lost at the race track.

And if you'll keep in touch with Sam while he's riding the various mounts you'll get plenty of thrills.

Sam's race track adventure starts

In the Bee Monday, August 6th.

SYSTEM

This bank is a part of the great financial system of the United States and the world. That means that it has connections which it is prepared to bring to your service and connections you can obtain in no other way.

FIRST NATIONAL BANK

DANVILLE

Established 1872

COMPLETE FACTS OF CIRCULATION ARE COLLECTED AND VERIFIED BY THE

Audit Bureau of Circulation

—AND BY THAT ASSOCIATION ONLY

AS SUPPORTED by the majority of reputable publishers in America, it has become, during the seven years of its existence, the recognized standard authority on circulation questions.

The A. B. C. is not a private institution. It is a mutual, non-profit-making association of advertisers, publishers and advertising agents. On the membership list are the names of the most prominent business houses in the United States and Canada. Their thorough belief in the service rendered by the Audit Bureau of Circulations is the basis of its success.

Over 80% of all newspapers in the United States having a circulation of more than 5,000 are members of the A. B. C.

An A. B. C. paper is a paper with Verified Circulation. No other mark can have the same meaning as the "A. B. C. Sterling Mark of Circulation," because no other organization checks completely the data submitted by publishers.

The Register and Bee

Will be pleased to furnish a copy of the latest A. B. C. Report

Demand an A. B. C. report from every paper soliciting your advertising

The REFEREE

By ALBERT APPLE

PENROD

High school girls spend an average of \$1.15 a week apiece, boys \$2.53, according to a check-up in Boston.

This may be old-timers who recall when many a high school lad wore his old suit made over by his father's hands to the youngsters, though. The decreased buying power of the dollar makes it necessary to divide spending by two or three to make a just comparison with the former generation's youthful pin-money.

The Boston average budget disclosed that boys spend 14 cents a week apiece for cigs, girls half as much.

DIAMONDS

Americans are importing diamonds at the rate of 65 million dollars worth a year. But that's only about 50 cents a year for each of us—5 cents a month—which certainly isn't extravagance in the modern sense.

Making allowances for increased prices, the nation doesn't seem to be buying more diamonds than before the war.

The figures quoted are wholesale prices, not what the consumer pays. But, even at that, the price of several movies matches our diamond bill. We throw our diamond money several times over into the garbage pail.

CHINESE

Essex Market Court in New York, which has been trying prisoners for more than a century, receives the first drunken Chinese in its history. Did you ever see a drunken oriental?

The widespread use of drugs among the Chinese, however, suggests that

the scarcity of Chinese drunkards

may be less a matter of temperance

and moderation than of nerves. Chinese have no nerves, in the white man's sense, most of them being able to undergo severe operations without anesthesia. This contrast will show itself in many forms as the two races increasingly come in contact with each other commercially.

ASIA

Our much-heralded trade with the Orient is back-bring. Instead of America finding big markets in the Orient, the Orient seems to be finding big markets in us.

During the last 12 months we bought from Asiatic countries about \$30 million dollars more than we sold them.

BORROWERS

We are a nation of borrowers, as lawnmower owners already know. Loans of all banks in the country now total around \$2 billion dollars or enough to put every American man, woman and child in debt \$200.

Comparing this with the average income, the American people—by the bank loan route—have their earnings mortgaged 8 x months ahead.

OIL

Mexican oil is eclipsed by the geyser of flowing gold in the big California fields. Oil exports from Mexico in the first six months of 1923 were a third less than the total of the corresponding months of a year ago.

Mexico begins checking out. California comes in. Don't ever worry about an oil famine. When California oil fields, other fields will be opened up. That has been the experience in the industry since Colonel Drake drilled the first well.
